

## MCQ-ARTHROPODA

Dr Anita Kumari

Assistant Professor (Guest faculty)

Dept of Zoology

L S College

### 1.Red dye for colouring cosmetics obtained from

- Lac Insect
- Cochineal Insect
- Spanish Fly
- Honey Bee

### 2.Cantharidine is got from

- Cochineal Insect
- Spanish Fly
- Red Ant
- Boll Weevil

### 3.Eggs of Pediculus are

- Nits
- Tumblers
- Naiads
- Instars

### 4.Cyclops differs from Daphnia in

- Having green colouration
- Absence of heart
- Absence of carapace
- All the above

**5. An animal related to spider is**

- King Crab
- Mosquito
- Peripatus
- Housefly

**6. Ticks and Mites belongs to**

- Insecta
- Crustacea
- Diplopoda
- Arachnida

**7. Stink glands occur in**

- Julus
- Scolopendra
- Palamnaeus
- Paratelphusa

**8. Which social insect produces the biggest colony**

- Bees
- Ant
- Termites
- Wasps

**9. In hypermetamorphosis, there are**

- Several larval moultings
- More than one pupal stage
- Several larval stages showing different structure and habits
- Several types of larvae

**11. Lepisma is**

- Stick Insect
- Leaf Insect
-

Praying Mantis

- Silver Fish

**12. Plant lice are**

- Locusts
- Ticks and Mites
- Aphids
- Plant Bugs

**13. Complete metamorphosis occurs in**

- Moth
- Grasshopper
- Bed Bug
- Silver Fish

**14. Naiads are**

- Nymphs of Locust
- Nymphs of Grasshopper
- Nymphs of Dragonfly
- All the above

**15. Praying Mantis is**

- Herbivorous
- Carnivorous
- Saprozoic
- Coprophagous

**16. Walking Worm is**

- Hermit Crab
- Millipede
- Peripatus
- Scylla serrata

**17. A wingless blood sucking ectoparasitic insect is**

- Mosquito

- Pediculus
- Silver Fish
- Aphis

**18. Trilobites are**

- Extinct arthropods
- Connecting link between annelids and molluscs
- Living fossils
- Insects

**19. Daphnia resembles aphids in**

- Parasitic mode of living
- Aquatic habitat
- Presence of carapace
- Parthenogenesis for a few generation

**20. Worker termites are**

- Wingless
- Sterile
- Blind
- All the above

**21. An insect helping in pollination is**

- Drosophila
- Musca nebulo
- Bombyx mori
- Apis dorsata

**22. Wings are covered by scales in**

- Dragonflies
- Houseflies
- Mosquitoes
- Butterfly

**23. Walking Stick is a**

- Chilopod
- Diplopod
- Crustacean
- Insect

**24. Glow worm/Fire Fly is**

- Insect
- Arachnid
- Diplopod
- Chilopod

**25. Human Louse is**

- Lepisma
- Pediculus
- Cimex
- Xenopsylla

**26. A characteristic feature of scorpions is**

- 4 pairs of walking legs
- Vivipary
- Chelicerae
- Pedipalpi

**27. An arthropod having unjointed legs is**

- Limulus
- Peripatus
- Eupagurus
- Millipede

**28. Scabies is due to**

- Ticks
- Itch Mite
- Maggots
- Fungal infection

**29. An insect commonly available from book shelves is**

- Silver Fish
- Drosophila
- Cockroach
- Mosquito
